SUMMARY

Final-year Computer Science and Engineering student at BRAC University with hands-on experience in cybersecurity, spanning both offensive and defensive security. Skilled in vulnerability assessment, penetration testing, threat hunting, SIEM & EDR based security monitoring, malware analysis, digital forensics, and CVE-driven risk analysis of web and software applications. Passionate about detecting and investigating security threats and implementing best practices to protect systems and digital assets.

PROFESSIONAL EXPERIENCE

Cyber Security Analyst Intern

Business Automation Limited

| Oct 2025 – Jan 2026

- Performed hands-on vulnerability assessments and penetration testing using **Nessus** and **Nuclei** to identify, validate, and document security weaknesses across applications and infrastructure, including CVE analysis and vulnerability assessment.
- Worked with practical threat detection, security monitoring, endpoint visibility, and incident investigation, supporting the early identification and analysis of suspicious activities.
- Gained hands-on experience with **Suricata** for IDS/IPS monitoring, and worked with **Wazuh** and in SIEM-based security monitoring and event analysis, while using **ESET** for XDR-related security operations.
- Supported alert management, incident response and security orchestration workflows using **Splunk** and **TheHive**, while working with **MISP** for threat intelligence and security event correlation.
- Conducted practical digital forensics, malware & network analysis using **Velociraptor**, **Wireshark**, **VirusTotal**, and assisting in the investigation of suspicious files, network activity, and potential security incidents.
- Produced detailed security assessment and incident analysis reports with actionable remediation recommendations, while supporting CIRT & Infrastructure operations, deployment workflows, DevOps activities, and secure system management.

PROJECTS

SportPulse | React, Node.js, Express.js

- Built a full-stack sports analytics platform featuring live scores, player statistics, standings, match analytics, and user authentication.

SimpleFS — File System Implementation | C, Operating Systems

- Implemented a virtual file system in C with inodes, directories, data blocks, superblocks, and bitmap-based storage allocation.

Bangladesh Board Examination Emergency Network | Cisco Packet Tracer, IPv4, RIPv2

- Designed a multi-site network with VLSM, routing, DHCP, DNS, and failover mechanisms for reliable inter-office communication.

TRAINING & CERTIFICATIONS	
1) SOC Analyst Path on Hack The Box Academy	June, 2026 - Ongoing
2) Vulnerability Assessment and Penetration testing on Defronix Academy, India.	Dec 2025 - May, 2026
3) Bug Bounty program on Defronix Academy	Sept, 2025 - Feb, 2026
4) Junior Penetration Testing on TryHackMe	Nov, 2024 - Jan, 2025
5) Introduction to Cyber security on TryHackMe	Sept, 2024 - Oct, 2024

TECHNICAL SKILLS

Programming Language: Python, JAVA, C++.

Security Research and bug exploration : HackerOne, Bugcrowd, YesWeHack

Offensive Security tools: Burp Suite, Kali linux, Ubuntu, Nmap, Metasploit, Shodan, ffuf

Security testing: Recon, XSS, IDOR, CSRF, SSRF, HTML Injection, SQL Injection, file upload vulnerability.

DevOps tools: Docker, Kubernetes.

Computer Science Fundamentals: Data Structure, Algorithm, Database Management, Computer Networks, AI, Electronic Devices and Circuits, Automata and computability, Computer Architecture, Operating Systems.

EDUCATION	
BRAC University - Bachelor of Science in Computer Science & Engineering	Fall 2022 – Fall 2026 (Expected)
Rajshahi Cantonment Board School & College - Higher Secondary Examination	2019 – 2021
Naohata Govt High School, Paba, Rajshahi - Secondary Examination	2017 – 2019

ADDITIONAL INFORMATION

Languages: English, Bangla, Hindi, Japanese.

Completed a Youth Leadership course as ECA.

Tutoring School & college students for more than 3 years.
